

TRANSFER CONDITIONS MARANOA RIVER WATER SUPPLY SCHEME

These local transfer conditions are to be read in conjunction with the conditions as set out on the Temporary Transfer Application Form.

Loss Adjustments

Under normal conditions there are no loss adjustments for the scheme. SunWater will advise applicants if a loss adjustment will be required.

Trading Caps

The resource operations licence holder may approve a seasonal water assignment if the total water use in a water year for each zone does not exceed the maximum allowable water use volume as indicated in the below table, current at April 2010 (subject to change)

Zone	Maximum water use (ML)

Transfer Adjustment Fee

A Transfer Adjustment Fee, equal to the value of SunWater's applied irrigation price subsidy, will be payable where water is transferred from a regulated irrigation pricing use to a non-irrigation use. It is the responsibility of the parties to any such transfer to contact SunWater to ascertain this fee in advance of settlement.

A Transfer Adjustment Fee, equal to the value of any other SunWater subsidy or discount to full commercial pricing, will also be payable where water is transferred from any other subsidised use to a non-subsidised use. Again, it is the responsibility of the parties to any such transfer to contact SunWater to ascertain this fee in advance of settlement.

Other

Additional restrictions on temporary transfers may be applied, for example, in extremely dry conditions or when there is a marked transfer of water to high loss areas, at SunWater's discretion.
