

TRANSFER CONDITIONS NOGOA MACKENZIE WATER SUPPLY SCHEME

These local transfer conditions are to be read in conjunction with the conditions as set out on the Temporary Transfer Application Form.

Loss Adjustments

Under normal conditions there are no loss adjustments for the scheme. SunWater will advise applicants if a loss adjustment will be required.

Trading Caps

A temporary transfer must not result in the transfer value lying outside of the seasonal water assignment limits provided by Department of Environment and Resource Management, as indicated in the below table, current at July 2009 (subject to change)

Seasonal water assignment limits (ML)	Mackenzie N, Mackenzie M, Mackenzie L, Mackenzie K & Mackenzie J	Mackenzie I, Mackenzie H	Mackenzie G, Mackenzie F & Mackenzie E	Mackenzie D, Mackenzie C & Mackenzie B
Minimum volume		12000	10000	5182
Maximum volume		46000		18882

Transfer Adjustment Fee

A Transfer Adjustment Fee, equal to the value of SunWater's applied irrigation price subsidy, will be payable where water is transferred from a regulated irrigation pricing use to a non-irrigation use. It is the responsibility of the parties to any such transfer to contact SunWater to ascertain this fee in advance of settlement.

A Transfer Adjustment Fee, equal to the value of any other SunWater subsidy or discount to full commercial pricing, will also be payable where water is transferred from any other subsidised use to a non-subsidised use. Again, it is the responsibility of the parties to any such transfer to contact SunWater to ascertain this fee in advance of settlement.

Other

Additional restrictions on temporary transfers may be applied, for example, in extremely dry conditions or when there is a marked transfer of water to high loss areas, at SunWater's discretion.
