

Announced Allocation

The Barker Barambah WSS Announced Allocation has been reviewed effective 01.01.2018, this review resulted in an increase for Medium Priority to 32% (previously 23%). The announcement will be reviewed again on 01.04.2018 or earlier if there is a major inflow into Bjelke Petersen Dam.

Carryover

Carryover loss for the third quarter has been applied to your water account as per the Guidelines on the Carryover Application Form. You can review your current balance via logging into SunWaterOnline or calling 13 15 89.

Bjelke-Petersen Dam Storage Forecast Model

SunWater’s water storage forecast tool allows customers to examine 12 month outlooks for future storage volumes in Bjelke-Petersen Dam. The tool forecasts the future 12 month dam volumes for two different inflow scenarios. The first scenario shows the dam volume that could be expected under average monthly inflows while the second scenario shows the dam volume that might be possible under minimum monthly inflows that have been experienced for Bjelke-Petersen Dam.

AS AT 9 January 2018:	
Scenario	Forecast Storage Volume on 1 July 2018
Based on average monthly inflows	51,463ML or 38.15%
Based on minimum monthly inflows	19,479ML or 14.44%
