### 2. Previous Minutes

The minutes for the last meeting 16 April 2009 were confirmed with the addition of:

- SunWater to look at data to support development of a model for continuous sharing

### 3. Business Arising From Minutes

### 4. Correspondence

- Emails and letters re meeting
- Email to IAC members re recent AA announcement.

### 5. New Business

**5.1 Commencement of CWSA.** Committee discussed how an announcement of 32% for medium priority was made yet irrigators cut off before being able to take their full allocation.

Danny advised that SunWater is restricted to the rules for water sharing as per section 4.3F in the ROP. There is no discretion. However the Barker Barambah Scheme is also under the conditions of a Critical Water Supply Arrangement which imposes a cut off for medium priority users when the level in BP Dam reaches EL 295.0 m AHD or approx. 8,000 ML.

**MINUTES OF MEETING – 25 June 2009**

---

Danny advised the latest from the department regarding their plans for a review of the WRP and ROP.

The committee resolved to work with SunWater on a review of the CWSA and the WRP/ROP.

**6. Next Meeting**

To be advised.

**Meeting closed at 12.30 pm.**
