

TRANSFER CONDITIONS BARKER BARAMBAH WATER SUPPLY

These local transfer conditions are to be read in conjunction with the conditions as set out on the Temporary Transfer Application Form.

Capacity Constraints

Additional Capacity constraints will apply for requests to access water from a channel or pipeline system. SunWater reserves the right to refuse a transfer if accepting the transfer may cause supply issues to existing customers.

Transfer Adjustment Fee

A Transfer Adjustment Fee, equal to the value of SunWater's applied irrigation price subsidy, will be payable where water is transferred from a regulated irrigation pricing use to a non-irrigation use. It is the responsibility of the parties to any such transfer to contact SunWater to ascertain this fee in advance of settlement.

A Transfer Adjustment Fee, equal to the value of any other SunWater subsidy or discount to full commercial pricing, will also be payable where water is transferred from any other subsidised use to a non-subsidised use. Again, it is the responsibility of the parties to any such transfer to contact SunWater to ascertain this fee in advance of settlement.

Storage Charges Fee

Storage Charges Fees may be applicable in this scheme.

Other

Additional restrictions on temporary transfers may be applied, for example, in extremely dry conditions or when there is a marked transfer of water to high loss areas, at SunWater's discretion.
