Ben Jarvis	Committee Member – Section 1
Arthur Maynard	Committee Member – Section 1
Neville Wogandt	SunWater Regional Manager – Minute Taker
John Barber	SunWater Service Supervisor

1. Apologies

Glen Ballin

2. Previous Minutes

Moved: Russ Salisbury that the minutes of the previous meeting be a true and correct record of that, meeting. **Seconded: Jock McLurcan, Carried**

3. Business Arising from Minutes

The IROL has now been amended to reflect 0% when Cania has low storage refer to IROL.

Discussion on Announced Allocation

Discussion on the groundwater plots and the need to have releases of greater than the 6,000 ML that is currently the case. There is a need to look at the operational strategies considering the poor release opportunities. The opportunities to release volumes in the order of 8,000 ML to 10,000 ML are required

Moved: Arthur Maynard SunWater pursues the variation with DERM to review the 6,000ML volume of water released in times when Cania is below the 30% mark to a more realistic level of between 8,000ML to 10,000ML to allow for an effective contact time frame with the creek beds. **Seconded: Max Ison, Carried**

Cania Dam

The storage position of Cania is as follows:

As at the 22 May 2009 Cania was storing 5,140ML and 6% of capacity

Three Moon Creek
IRRIGATOR ADVISORY COMMITTEE

MINUTES OF MEETING – 22 May 2009
