Explanatory notes

1. Eton Water Supply Scheme 'Water Entitlements (ML)' are as at 31 March 2020 and 30 June 2020 for all other water supply schemes
2. All figures included in the table above are preliminary. Final figures will be provided to the Department of Natural Resources, Mines and Energy
3. Available Water, Water Deliveries and Temporary Transfer Purchase Volume are for the most recently completed water year - 30 September 2019 for Dawson Valley Water Supply Scheme, 31 March 2020 for Eton Water Supply Scheme and 30 June 2020 for all other water supply schemes
4. Riparian allowance, channel harvesting, river harvesting are excluded from all figures
5. Water Deliveries (ML) include Risk-A water in Upper Condamine Water Supply Scheme
6. Available Water (%) totals for are consolidated from all scheme sectors and may include products available for that scheme (e.g. carryover water)
7. Water Deliveries (%) totals are consolidated from all scheme sectors
8. Water Entitlements (ML) for Eton Water Supply Scheme include water entitlements with a priority type of "Risk"
9. During the reporting period, Sunwater reduced Paradise Dam's capacity to facilitate essential works for safety reasons. The water released was made available via two - out-of-allocation events at no charge. Sunwater's unsold water allocations were Temporary Transferred (TT) to different zones for accounting purposes. This TT is the 27,615 ML showing in the Temporary Transfer Purchase Volume (ML) column for the Bundaberg Water Supply Scheme. Further, the Water Deliveries (ML) attributed to Sunwater reflect the water taken by customers during the two out-of-allocation events, as well as any other TTs prior to 27 September 2019.
