<input type="checkbox"/> Other (specify): _____	<input type="checkbox"/> Stock watering	_____
_____	<input type="checkbox"/> Domestic Use	_____

Part C - Customer's Nominated Works (Offtake Details)

Is this transfer associated with the sale of land? Yes No If yes, please provide details below

Offtake number(s) _____

Land (Lot/RP) _____

If offtake(s) are located within a channel distribution network please complete below.

Name of distribution network (Name of Water Supply Scheme) _____

Note: Customers are responsible for assessing if metered works are required to access the allocation intended for purchase. Please refer to the 'metered works' subsection of the terms and conditions for further information relating to infrastructure required to access the allocation intended for purchase. Further information on offtake(s) can be found under 'definitions' subsection of the terms and conditions. Alternatively, contact customer support on 13 15 89.

Part D - Customer Water Allocation Particulars (only if applicable)

It is a requirement of this application you attach:

For purchase/transfer:

- Sale Contract or copy of completed Form 1 & Form 24;
- Copy of Water Allocation Search/Registration Confirmation Statement (search date within the last 6 months)

For Lease or sublease:

- Copy of completed Form 7 & Form 20;
- Copy of Water Allocation Search/Registration Confirmation Statement (search date within the last 6 months)

Water allocation number		Nominal volume	ML	Zone	
Water allocation number		Nominal volume	ML	Zone	
Water allocation number		Nominal volume	ML	Zone	
Water allocation number		Nominal volume	ML	Zone	

Part E - Channel distribution network

Note: Termination fees may apply if water is to be moved out of the channel system.

Section 2 - Settlement date

Proposed settlement date of transfer/lease: _____

Section 3 - Transfer volume of available water (if applicable)

See Application Transfer Volume Terms and Conditions for more information

Volume of available water to be transferred: _____ ML

Note: Transfer volume will be subject to calculation based on the seller's usage of water allocation(s) and available water. For more information, please contact 13 15 89 Monday to Friday between 8.30am and 4.30pm

Section 4 - Transfer statement

The seller gives notice under their Water Supply Contract to change their allocation details, from the date of the registration of this dealing. The seller also agrees that if they are selling all of the water allocation subject to a contract, then this is an application to terminate that Water Supply Contract.

The buyer seeks to enter into a Water Supply Contract(s) with Sunwater for the nominal volume as outlined on the water allocation title(s).

The buyer further acknowledges that Sunwater may need to apply conditions in relation to distribution losses associated with the delivery of additional water into the channel system.

The buyer has determined if metered works are required to access the allocation intended for purchase, and if required sought approval from Sunwater prior to commencing the purchase process.

The buyer and seller agree to the terms outlined on this form. Please refer to subheading 'Information shared between parties to facilitate the transfer' for information about the account details the seller is consenting to share with the buyer or other authorised parties to complete the transfer.

Solicitor signing on behalf of buyer and/or seller:

Where a solicitor acting for a seller or buyer signs this application, the solicitor warrants that their client has read, understood and agreed to be bound by the terms and conditions and the transfer statement.

*Where the solicitor signs for a seller (lessor) or buyer (lessee) the solicitor's name, firm name and contact details must be included with the signature.

Seller (signed by all relevant signatories)

Signature	Print name	Date

For Solicitors (signing on behalf of seller/relevant signatories)

Firm name: _____ Best contact number: _____
 Firm address: _____

Buyer (signed by all relevant signatories)

Signature	Print name	Date

For solicitors (signing on behalf of buyer/relevant signatories)

Firm name: _____ Best contact number: _____
 Firm address: _____

Checkpoint

I have attached and completed:

Customer Profile Form (for all new customers)	If a lease, copies of completed Forms 7 & 20
Copy Sale Contract or completed Form 1 & 24	Water Allocation Title for Water Allocation(s) The search must be completed within the last 6 months
ASIC Company search - if seller/lessee or buyer is a company The search must be completed within the last 6 months	If deceased estate, Death Certificate and the applicable departmental forms for deceased estates Departmental - Department of Regional Development, Manufacturing and Water
Full trust name details - If buyer is a trust	I have completed all relevant sections as indicated at the start of the form

Application Terms and Conditions

Response time by Sunwater

Issue supply contracts and Notice to Registrar (NTR) (if applicable) within 17 business days from receipt of all required documents and forms.

Application

This application must be signed by the buyer and seller or solicitors acting on behalf of each party.

Buyer's contract

If the buyer does not have a current contract, Sunwater will send a new contract to the buyer.

Sunwater will issue a new contract if the buyer already holds a standard supply contract and will take the transferred water through the pump/outlet under the contract.

Seller's contract

If the seller is selling all of their Water Allocation subject to the one contract, then Sunwater will release the Seller from their contract after:

- registration of the water allocation in the name of the buyer
- payment of termination fees (if applicable)
- payment of all charges under the contract

Water charges

The buyer and seller are advised to deal with apportionment of water charges as part of settlement.

If a final meter reading is obtained then Sunwater may issue a final invoice addressed to the seller. Sunwater can provide a final meter reading for a fee or customers may choose to read the meter themselves and advise Sunwater.

If the buyer is subject to the Sunwater Rural Water Pricing Direction Notice, these charges will apply. Otherwise, charges must be negotiated with Sunwater. Please contact your Sunwater office to discuss if you are in any doubt.

Metered works

Customers are responsible for assessing if metered works are required to access the allocation intended for purchase. To confirm if the water intended for purchase can be delivered by Sunwater to the intended water source (explained further in definitions), please contact customer support on 13 15 89 for further review and assessment.

Information shared between parties to facilitate the transfer

Upon signing this application, the seller consents to Sunwater releasing account and billing information directly related to the sale to the buyer or parties authorised to act on either parties' behalf. Information required to be shared as part of the sale will include:

- water allocation numbers
- associated water usage including current water balances, meter reads and offtake details
- current billing charges and/ outstanding balances

Transfer volume of available water

Not applicable if the seller's account will be closed after this application as the buyer will receive all remaining water for the current water year and for future water years will have access to the nominal volume as outlined on the Water Allocation Title(s) subject to Scheme Announced Allocation calculations. Transfer volume will be subject to calculation based on the seller's usage of water allocation(s) and available water. For more information, please contact 13 15 89 Monday to Friday between 8.30am and 4.30pm.

Example 1

Announced Allocation = 100ML

Usage through offtake associated with sale = 50ML

Transfer volume = 50ML

Example 2

Announced Allocation = 100ML

Sale Contract condition that no water will be available until the next announcement

Transfer volume = 0ML

Example 3

Customer has multiple allocations with a total volume of 200ML and is wanting to sell one allocation with a volume of 50ML. Customer has used across all allocations 50% (100ML) of available allocation. Calculating transfer volume is approached as follows:

Volume to be sold vs total volume of all allocations as a percentage

For this example: $50/200\text{ML} = 25\%$

Percentage calculated is then applied to allocation volume intended for purchase.

For this example: $25\% \text{ of } 50\text{ML} = 12.5\text{ML}$ Transfer Volume

Drainage charges (Burdekin Haughton Water Supply Scheme)

Drainage charges are set per hectare of land. These charges continue to apply for landholders in the drainage area, despite the transfer of the Water Allocation.

Channel deliveries

Flow rates and maximum diversion rates - channel (if applicable)

Access conditions and maximum diversion rates and works approvals are not affected by this transfer.

Caps for transfers into channel system (if applicable)

Channel/pipeline capacity limitations may exist in some schemes therefore no additional allocation can be transferred into these sections.

Provided there are no other operational constraints to the delivery of water, there are currently no caps apart from those set out in the relevant Water Management Protocol.

Transfers out of the channel system (if applicable)

Where a requested transfer involves the movement of water between the channel/pipeline and the river, approval of the transfer is at the sole discretion of Sunwater, taking into account relevant contractual obligations and relevant regulations.

A termination fee payable by the seller to Sunwater applies where water is being transferred out of the channel/pipeline system. Refer to the Fees and Charges Schedule for tariffs.

Distribution losses in the channel system

Sunwater will consider the impacts on distribution losses from the transfer as part of this application and advise the buyer of any requirements.

Definitions

Buyer in a lease or sublease means **lessee**

Seller in a lease or sublease means **lessor**

Transfer volume is the volume of water received by the buyer based on the seller's usage of water

Nominal volume is the total volume of water as outlined on the Water Allocation Title(s)

Offtake is the meter or pump used to access your water allocation

Collection of your personal data

Sunwater collects and uses your Personal Information to provide products, services and information to you, its customers and for its business operations.

If you choose not to provide certain Personal Information to Sunwater, Sunwater may be unable to provide you with the services, information or other access arrangement requested.

Our Privacy Policy can be viewed at <https://www.sunwater.com.au/privacy-policy/> and tells you how we usually collect, use and disclose your Personal Information (including the types of entities we may disclose your Personal Information to) and how you can ask for access to it or seek correction of your Personal Information. Our Privacy Policy also contains information about how you may make a privacy complaint, and how we will deal with such a complaint.

If you choose not to provide certain Personal Information to us, we may not be able to provide you with the services, information or other arrangements required.

We may disclose Personal Information to recipients outside of Australia. Such recipients are likely to be located in New Zealand, Canada, India, Singapore, the United Kingdom, Germany or the United States of America.

If you would like further information about our privacy policies or practices, please contact our Privacy Officer using the contact details below.
