Water Transfer (At dam)						
Seller's nominated transfer volume	ML	Price per ML	\$	Water Year	/	
Capacity Transfer (Actual volume)						
Seller's nominated transfer volume	ML	Price per ML	\$	Water Year	/	
Part E - Transfer Statement						
<p>This application is made under the standard Water Supply Contract and Cap Transfers are Seasonal Water Assignments under the Water Act 2000. The seller warrants that they have sufficient unused resource cap and/or water available under their contract with Sunwater for the proposed temporary transfer. The seller requests to reduce the volume available to them by the nominated transfer volume and the buyer requests to increase the volume available to them by the volume determined after application of cap adjustments factors or storage factors as appropriate. The buyer warrants they have approval under the Integrated Planning Act for their pump taking the water. The buyer and seller acknowledge that they have read and agree to the transfer conditions on the back of this form and acknowledge that in addition to the transfer conditions this application will be assessed by Sunwater in accordance with the local conditions for the water supply scheme in place on the day that Sunwater receives this application.</p> <p>This form must be signed by a customer noted on the Water Supply Contract or listed as a holder of the Interim Water Allocation/Water Allocation ("Relevant Signatories"). The relevant signatories may sign this form personally, or an authorised person may sign on their behalf. Sunwater accepts the signatures of persons authorised to sign under a relevant Power of Attorney, where a copy of that Power of Attorney is attached/already submitted. Authorised persons should specify on whose behalf they are signing, and that they are signing under Power of Attorney.</p>

Signature	Print name	Date	
Buyer (must be Principal Account/Contract Holder)			
Signature	Print name	Date	
Tick where relevant:			Buyer
Signed under Power of Attorney (copy attached/already submitted)			Seller

Transfer terms and conditions

Bulk share cap and water transfers

For water allocations managed as part of the bulk share (BS), a temporary transfer enables a customer within the bulk share to transfer all or part of their account balance to another bulk share customer in the **current water year**.

Note: A temporary transfer as defined above is a seasonal assignment under the Water Act 2000.

Individual continuous shares cap and water transfers

For water allocations managed as Individual Continuous Shares (ICS), cap transfers enable an ICS customer to transfer to another ICS customer their unused resource cap in the current water year, and water transfers enable an ICS customer to transfer their available water to another ICS customer.

Note: A cap transfer as defined above is a seasonal assignment under the Water Act 2000 and a water transfer is not considered as a seasonal assignment under the Water Act 2000.

Volume that can be transferred

The maximum amount of water or resource cap the seller can transfer is the water available or unused resource cap at the time of the application. By signing this form, the seller warrants they have sufficient water available for the transfer. The seller is encouraged to check their meter reading to determine if such water is available.

If the Seller applies to transfer more than their available water at the time of the application, they will be in breach of their Supply Contract with Sunwater.

Application

To apply for a transfer, both the buyer and seller should complete and sign this application form and submit it either by fax, email or post as per the details above.

Sunwater will notify the buyer and seller via their preferred contact method confirming receipt of, and provided the application has been completed correctly, whether the temporary transfer has been approved or rejected. The rules applied by Sunwater in determining whether to approve or refuse application for transfers can be found in the Local Conditions, specific to each Water Supply Scheme. The Local Conditions applying to your application will be the Local Conditions in place on the day your application is received by Sunwater. A copy of the current Local Conditions can be obtained by contacting Sunwater or from www.sunwater.com.au.

You should contact Sunwater prior to signing the application form to ensure you have a current version of the application form and a current copy of the local conditions. Your application will not be assessed by Sunwater unless you have used the most up-to-date version of the application form.

Note: In most circumstances, applications cannot be processed if the buyer or seller have an overdue balance. For more information, please contact customer support on 13 15 89.

End of water year applications

Please ensure the application form is submitted at least five (5) business days prior to the end of the current water year.

WARNING

Any transfer of money between the buyer and the seller is made at their own risk.

The buyer should not begin accessing the water from a temporary transfer until they receive confirmation from Sunwater the temporary transfer has been approved. If a buyer exceeds its existing entitlement and the temporary transfer is refused, Sunwater is required to report the buyer to the Department of Regional Development, Manufacturing and Water (DRDMW).

Land and Water Management Plan

You may wish to contact DRDMW to clarify any requirements for a Land and Water Management Plan.

Supply contract

The buyer must have a supply contract with Sunwater for delivery of the water prior to the application being made. To accelerate the processing of this form, please ensure **all** accounts are up to date, with no overdue amounts owing.

Where the seller may have an arrangement with Sunwater for payment of outstanding charges, Sunwater may approve the transfer subject to these proceeds being paid to Sunwater to reduce the overdue amount. You can check your balance by logging into Sunwater Online.

Water charges

The seller's Part A (fixed) charges do not change as a result of the temporary transfer. Part B consumption charges apply for all water taken where the Standard Supply Contract applies. A Transfer Adjustment Fee may apply.

Approved pumps

The buyer must ensure they have obtained approval under the Integrated Planning Act for their pump. This may include prior approval under a license.

Loss adjustments - Water and CAP transfer

Refer to Local Conditions.

Transfer adjustment fee

A transfer adjustment fee may apply. Please contact Sunwater for details

***Price per ML field is an optional field**
