Should customers have concerns about this information being published and made available, please make contact with Sunwater on 13 15 89 prior to submitting this application.				

Part E - Transfer Statement

This application is made under the supply contract and cap transfers are seasonal water assignments under the Water Act 2000. The seller warrants that they have sufficient unused resource cap and/or water available under their contract with Sunwater for the proposed temporary transfer. The seller requests to reduce the volume available to them by the nominated transfer volume and the Buyer requests to increase the volume available to them by the volume determined after application of cap adjustments factors or storage factors as appropriate. The buyer warrants they have approval under the Planning Act 2016 (Qld) for their pump taking the water. The buyer and seller acknowledge they have read and agree to the transfer conditions included in this form and acknowledge that in addition to the transfer conditions this application will be assessed by Sunwater in accordance with the local conditions for the water supply scheme in place on the day that Sunwater receives this application.

This form must be signed by a customer noted on the supply contract or listed as a holder of the Interim Water Allocation/Water Allocation ("Relevant Signatories"). The relevant signatories may sign this form personally, or an authorised person may sign on their behalf. Sunwater accepts the signatures of persons authorised to sign under a relevant Power of Attorney, where a copy of that Power of Attorney is attached/already submitted. Authorised persons should specify on whose behalf they are signing, and whether they are signing under Power of Attorney. By signing this you are agreeing you have read the current local conditions for the relevant scheme available from sunwater.com.au or from your local office.

Transfer terms and conditions

Bulk share cap and water transfers

For water allocations managed as part of the bulk share (BS), a temporary transfer enables a customer within the bulk share to transfer all or part of their account balance to another bulk share customer in the **current water year**.

Note: A temporary transfer as defined above is a seasonal assignment under the Water Act 2000.

Individual continuous shares cap and water transfers

For water allocations managed as Individual Continuous Shares (ICS), cap transfers enable an ICS customer to transfer to another ICS customer their unused resource cap in the current water year, and water transfers enable an ICS customer to transfer their available water to another ICS customer.

Note: A cap transfer as defined above is a seasonal assignment under the Water Act 2000 and a water transfer is not considered as a seasonal assignment under the Water Act 2000.

Volume that can be transferred

The maximum amount of water or resource cap the seller can transfer is the water available or unused resource cap at the time of the application. By signing this form, the seller warrants they have sufficient water available for the transfer. The seller is encouraged to check their meter reading to determine if such water is available.

If the Seller applies to transfer more than their available water at the time of the application, they will be in breach of their Supply Contract with Sunwater.

WARNING

Any transfer of money between the buyer and the seller is made at their own risk. The buyer should not begin accessing the water from a temporary transfer until they receive confirmation from Sunwater the temporary transfer has been approved. If a buyer exceeds its existing entitlement and the temporary transfer is refused, Sunwater is required to report the buyer to the Department of Regional Development, Manufacturing and Water (DRDMW).

Application

To apply for a transfer, both the buyer and seller should complete and sign this application form and submit it either by fax, email, to their local Sunwater office, or post as per the details above.

Sunwater will notify the buyer and seller via their preferred contact method confirming receipt of, and provided the application has been completed correctly, whether the temporary transfer has been approved or rejected within 5 business days of receiving all applications (correctly completed). The rules applied by Sunwater in determining whether to approve or refuse application for transfers can be found in the Local (or Local Interscheme) Conditions, specific to each Water Supply Scheme.

The Local Conditions applying to your application will be the Local Conditions in place on the day your application is received by Sunwater.

You should contact Sunwater prior to signing the application form to ensure you have a current version of the application form and a current copy of the Local or Interscheme Transfer Conditions. Your application will not be assessed by Sunwater unless you have the most up-to-date version of the application form.

A copy of the current Local Conditions can be obtained by contacting Sunwater or from www.sunwater.com.au

Note: In most circumstances, applications cannot be processed if the buyer or seller have an overdue balance. For more information, please contact customer support on 13 15 89.

End of water year applications

Please ensure the application form is submitted at least five (5) business days prior to the end of the current water year.

Land and Water Management Plan

You may wish to contact DRDMW to clarify any requirements for a Land and Water Management Plan.

Supply contract

The buyer must have a supply contract with Sunwater for delivery of the water prior to the application being made. To accelerate the processing of this form, please ensure all accounts are up to date, with no overdue amounts owing. Where the seller may have an arrangement with Sunwater for payment of outstanding charges, Sunwater may approve the transfer subject to these proceeds being paid to Sunwater to reduce the overdue amount. You can check your balance by logging into Sunwater Online.

Water charges

The seller's Part A (fixed) charges do not change as a result of the temporary transfer. Part B consumption charges apply for all water taken where the Standard Supply Contract applies. A Transfer Adjustment Fee may apply.

Approved pumps

The buyer must ensure they have obtained approval under the *Planning Act 2016* (Qld) for their pump. This may include prior approval under a license.

Loss adjustments - Water and CAP transfer

Refer to Local Conditions.

Transfer adjustment fee

A transfer adjustment fee may apply. Please contact Sunwater for details

Collection of your personal information

Sunwater collects and uses your Personal Information to provide products, services and information to you, its customers and for its business operations.

If you choose not to provide certain Personal Information to Sunwater, Sunwater may be unable to provide you with the services, information or other access arrangement requested.

Our Privacy Policy can be viewed at <https://www.sunwater.com.au/privacy-policy/> and tells you how we usually collect, use and disclose your Personal Information (including the types of entities we may disclose your Personal Information to) and how you can ask for access to it or seek correction of your Personal Information. Our Privacy Policy also contains information about how you may make a privacy complaint, and how we will deal with such a complaint.

If you choose not to provide certain Personal Information to us, we may not be able to provide you with the services, information or other arrangements required.

We may disclose Personal Information to recipients outside of Australia. Such recipients are likely to be located in New Zealand, Canada, India, Singapore, the United Kingdom, Germany or the United States of America.

If you would like further information about our privacy policies or practices, please contact our Privacy Officer using the contact details below.
