Part B – Proposed transfer details - form must be completed and signed by Principal Account Holder

Customer Account ID Water Account ID

Principal Account Holder name _____ Date of birth _____

Address _____

Select preferred notification method Email SMS

Email address _____ Mobile number _____

****Please note, the method chosen as well as contact information supplied (if different to what is noted on your account) will be updated as your preferred contact method for all future Sunwater correspondence. Only one preferred method of contact can be selected****

Part C – Nominated transfer period and volume proportion

Period for transfer of customer’s scheduled volume <i>Note: This period cannot be later than the end of the current water year.</i>	From:		To:	
Proportion of customer’s scheduled volume to transfer	%	OR	ML	*Price paid (Per ML) \$

This application is made under the CSG Water Supply Agreement. The customer requests to reduce the customer’s scheduled volume by the nominated proportion of the customer’s scheduled volume for the nominated transfer period, and the proposed transfer recipient requests to receive the same volume. This form must be signed by a party listed as a customer on the relevant CSG Water Supply Agreements (“relevant signatories”). The relevant signatories may sign this form personally, or an authorised person may sign on their behalf. Sunwater accepts the signatures of persons authorised to sign under a relevant Power of Attorney, where a copy of that Power of Attorney is attached/already submitted. Authorised persons should specify on whose behalf they are signing, and state they are signing under a Power of Attorney.

Seller (must be Principal Account Holder)

What is a temporary transfer

A temporary transfer enables two customers to transfer available water in the current water year.

The seller's remaining available water for the water year will be reduced by the Nominated Transfer Volume. The water available to the buyer will be increased by this volume, less any Loss Adjustment (the Assessed Volume).

The volume available to the buyer is not affected by any increases in Announced Allocation during the water year.

Temporary transfers do not alter the buyer or seller's access conditions for taking water from a channel or pipeline.

Volume that can be transferred

The maximum amount the seller may transfer is the volume available to the seller on their water account at the time of application. By signing this form, the seller warrants they have sufficient water available for the temporary transfer. The seller is encouraged to check their meter reading to determine if such water is available.

If the seller applies to transfer more than their available water, they will be in breach of their supply contract with Sunwater.

Application

To apply for a transfer, both the buyer and seller should complete and sign this application form and submit it either by fax, email or post as per the details above.

Sunwater will notify the buyer and seller via their preferred contact method confirming receipt of, and provided the application has been completed correctly, whether the temporary transfer has been approved or rejected. The rules applied by Sunwater in determining whether to approve or refuse application for transfers can be found in the Local Conditions, specific to each Water Supply Scheme. The Local Conditions applying to your application will be the Local Conditions in place on the day your application is received by Sunwater. A copy of the current Local Conditions can be obtained by contacting Sunwater or from www.sunwater.com.au.

You should contact Sunwater prior to signing the application form to ensure you have a current version of the application form and a current copy of the Local Conditions. Your application will not be assessed by Sunwater unless you have used the most up-to-date version of the application form.

End of water year applications

Please ensure the application form is submitted at least five (5) business days prior to the end of the current water year.

Note: In most circumstances, applications cannot be processed if the buyer or seller have an overdue balance. For more information, please contact customer support on 13 15 89, Monday-Friday 8.30am-4.30pm.

WARNING

Any transfer of money between the buyer and the seller is made at their own risk.

The buyer should not begin accessing the water from a temporary transfer until they receive confirmation from Sunwater the temporary transfer has been approved. If a buyer exceeds its existing entitlement and the temporary transfer is refused, Sunwater is required to report the buyer to the Department of Natural Resources, Mines and Energy (DNRME).

Customers should be aware that any temporary transfer undertaken in conjunction with a Carryover application is subject to the Carryover Cancellation rules for that Scheme.

Land and Water Management Plan

You may wish to contact DNRME to clarify any requirements for a Land and Water Management Plan.

Supply contract

The buyer must have a supply contract with Sunwater for delivery of the water prior to the application being made. To accelerate the processing of this form, please ensure **all** accounts are up to date, with no overdue amounts owing.

Where the seller may have an arrangement with Sunwater for payment of outstanding charges, Sunwater may approve the transfer subject to these proceeds being paid to Sunwater to reduce the overdue amount. You can check your balance by logging into SunwaterOnline.

Transfer adjustment fee

Refer to Local Conditions specific to each water supply scheme.

Approved pumps

The buyer must ensure they have obtained approval under the Integrated Planning Act for their pump. This may include prior approval under a license.

Loss adjustments

Refer to Local Conditions specific to each water supply scheme.

***Price per ML field is an optional field**
