

## TRANSFER CONDITIONS BUNDABERG WATER SUPPLY SCHEME

These local transfer conditions are to be read in conjunction with the conditions as set out on the Temporary Transfer Application Form.

### Loss Adjustments

Under normal conditions there are no loss adjustments for the scheme. SunWater will advise applicants if a loss adjustment will be required.

### Trading Caps

As per the Burnett Basin ROP a water allocation holder may apply for a seasonal change to the location of the water allocation between zones AA,AB,AC,AD,CA,CB and GZ.

The proposed seasonal change is not a permitted change if the proposed change would result in a use of medium or high priority water allocations in outside the cap limitations provided by Department of Environment and Resource Management, as indicated in the below table; current as at April 2010 (subject to change):

**Table 1: Permitted use of high priority water allocations in the Bundaberg Water Supply Scheme by zone**

Zones	AA	AB	AC	AD	CA	CB	GZ
Minimum nominal volume of high priority water use (ML)	3100	0	0	3990	8840	0	0
Maximum nominal volume of high priority water use (ML)	3600	105	280	4190	36570	37050	20000

**Table 2: Permitted use of medium priority water allocations in the Bundaberg Water Supply Scheme by zone**

Zones	AA	AB	AC	AD	CA	CB	GZ
Minimum nominal volume of medium priority water use (ML)	36025	2785	0	46750	64325	4450	2855
Maximum nominal volume of medium priority water use (ML)	42553	6790	5160	67180	189325	156760	41235

### Capacity Constraints

Additional Capacity constraints will apply for requests to access water from a channel or pipeline system, for both Peak and Off Peak transfers. SunWater reserves the right to refuse a transfer if accepting the transfer may cause supply issues to existing customers.

### Transfer Adjustment Fee

A Transfer Adjustment Fee, equal to the value of SunWater's applied irrigation price subsidy, will be payable where water is transferred from a regulated irrigation pricing use to a non-irrigation use. It is the responsibility of the parties to any such transfer to contact SunWater to ascertain this fee in advance of settlement.

A Transfer Adjustment Fee, equal to the value of any other SunWater subsidy or discount to full commercial pricing, will also be payable where water is transferred from any other subsidised use to a non-subsidised use. Again, it is the responsibility of the parties to any such transfer to contact SunWater to ascertain this fee in advance of settlement.

### Storage Charges Fee

Storage Charges Fees may be applicable in this scheme.

### Other

Additional restrictions on temporary transfers may be applied, for example, in extremely dry conditions or when there is a marked transfer of water to high loss areas, at SunWater's discretion.
