

TRANSFER CONDITIONS LOWER MARY RIVER WATER SUPPLY SCHEME

These local transfer conditions are to be read in conjunction with the conditions as set out on the Temporary Transfer Application Form.

Loss Adjustments

Under normal conditions there are no loss adjustments for the scheme. SunWater will advise applicants if a loss adjustment will be required.

Capacity Constraints

Additional Capacity constraints may apply for requests to access water from a channel or pipeline system. SunWater reserves the right to refuse a transfer if accepting the transfer may cause supply issues to existing customers.

Trading Caps

There are no Trading Caps in the scheme.

Changes to these conditions

These terms and conditions are subject to change under implementation of a Resource Operating Plan (ROP) by the Department of Environment and Resource Management.

Transfer Adjustment Fee

A Transfer Adjustment Fee, equal to the value of SunWater's applied irrigation price subsidy, will be payable where water is transferred from a regulated irrigation pricing use to a non-irrigation use. It is the responsibility of the parties to any such transfer to contact SunWater to ascertain this fee in advance of settlement.

A Transfer Adjustment Fee, equal to the value of any other SunWater subsidy or discount to full commercial pricing, will also be payable where water is transferred from any other subsidised use to a non-subsidised use. Again, it is the responsibility of the parties to any such transfer to contact SunWater to ascertain this fee in advance of settlement.

Storage Charges Fee

Storage Charges Fees may be applicable in this scheme.

Other

Additional restrictions on temporary transfers may be applied, for example, in extremely dry conditions or when there is a marked transfer of water to high loss areas, at SunWater's discretion.
