Updating your invoice delivery method

Over the 2019-20 water year, a total of 19,009 invoices were generated. The vast majority of these (83 per cent) were posted, with a small portion being emailed (17 per cent).

Invoices received via post are a summary only and don't include information such as past meter reads, water usage, and a breakdown of your fees and charges.

By opting for an email invoice, your bills will be received in real time and, instead of receiving a summary invoice, bills will include all of the above information.

To update your invoice delivery method, please contact customer support by phone, email or the Sunwater website live chat.
