Forecast AA for 2018-2019 New Water Year

Based on the current low storage level of Leslie Dam, SunWater predict the Announced Allocations for the new 2018-2019 water year which commences on 1 July to be: HP-A 100%, HP-B 90%, MP 0%.

Due to the lack of significant inflows to Leslie Dam this wet season, we understand this is a difficult time for you, as low allocations can have a significant impact on your business. We will continue to work closely with you during these challenging times.

Announced Allocation

As at 01.04.2018
